

**Our business is improving  
medical + legal outcomes  
*for*  
personal injury patients  
who require surgery**

---

Personal injury + L.O.P. specialists

# Working with HHF on your **L.O.P. CASES** helps:

- ✓ Surgical centers save time + money on HH care | ✓ Attorneys build stronger cases for clients
- ✓ Home Health agencies expand patient base | ✓ Patients receive more and better care

## **SURGICAL CENTERS**

Better, faster recovery potential and *significantly reduces post-surgical patient phone calls to your office* because professional caregivers educate patients, friends + family about medications, doctor's instructions and care techniques. And, *we pay for home health care*, so there's no expense to you!

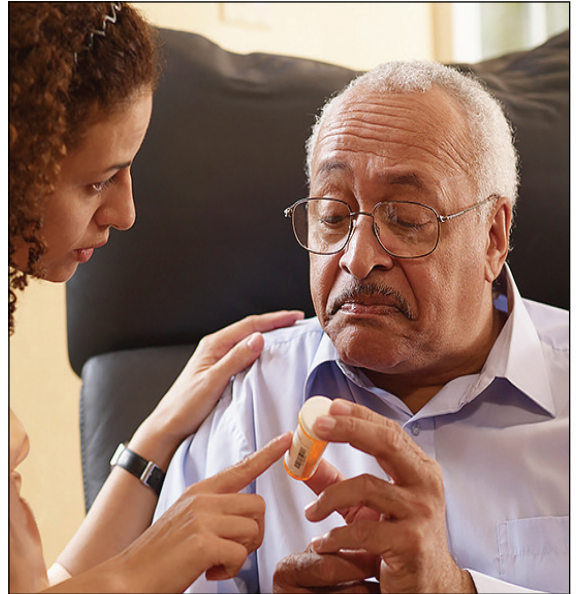

## **PERSONAL INJURY ATTORNEYS**

Adding professional post-surgical care *underscores the significance of a patient's condition, strengthening PI cases*. Cases are further supported by improved documentation and (when possible) photographs. Surgical centers know the value of professional post-surgical home care, but can't always afford the time or expense of arranging for it. *HHF removes that obstacle* - simplifying the process + paying for the home care.

## **HOME HEALTH AGENCY**

Home health agencies can accept more LOP patients because *HHF guarantees immediate payment* on qualified cases – regardless of the settlement outcome. This frees up working capital so agencies can expand their client base and *profitably* serve LOP patients, without financial risk.

**Working with HHF is simple and...  
there's no cost. Call or email us.**
